Auditors' Report.

EXETER, N. H., February 24, 1906.

We have examined this and the annexed statement rendered by the Highway Agent, and find that he has received, as above detailed, seven thousand one hundred and eighty-two dollars and thirty-eight cents ($7,182.38), and expended seven thousand two hundred and twenty-nine dollars and thirty-three cents ($7,229.33), including his over-expenditure of $115.17 mentioned in his last year's account. There is therefore an apparent balance of forty-six dollars and ninety-five cents ($46.95) due from the town to Mr. Tilton, to balance the account.

Police Commissioners' Report.

At a regular meeting of the Board of Commissioners in March, George A. Wentworth was chosen chairman and Albion Burbank clerk. These regular sessions are held in the police office on the first Tuesday of each month at seven o'clock P. M. to listen to any complaints of citizens, and to transact all necessary business of the department.

The organization of the police force remains unchanged from last year. A coat of paint on the walls and wood work of the police office and other minor improvements have recently made the room less unattractive.

The expenses of the department for the fiscal year 1905-1906 have amounted to $2,941.32, slightly less than the sum recommended by the Committee of Appropriations.

The Board respectfully suggest that that Committee recommend $3,000 as the appropriation for the coming year.

A portion of the work of the police officers is indicated in the report of Superintendent Gooch.

February 6, 1906. 9.15 A. M. Still alarm for fire in a small building on River street. No loss.

February 11, 1906. Box 23; 3.50 A. M. Alarm for fire in building on Upper Front street owned by Lyman B. Greely and occupied by John Kopka as a barber shop and pool room and tenement. Value of building, $1,000; insurance, $800; insurance paid, $69.50. Value of contents, $300. No insurance. No loss.

The apparatus under my charge is in good condition. We are well supplied with hose at the present time, having lately purchased eight hundred feet of new hose for the Steamer; have also purchased a new swing harness for Granite Hose company, No. 3.

The Board of Engineers investigated the fire of February 3rd with a view to find out, if possible, the cause and where it started. After considering the evidence fully the Board of Engineers came to the following conclusion. We find nothing definite from the evidence given to settle the actual cause of the fire, but it is our opinion that the cause was incendiary.

I wish to return my sincere thanks to George B. Shaw, manager of the Exeter Telephone company, for his present to the department of a receipted bill for a telephone at the Steamer house for the past year, also to Mr. M. S. Richmond and Miss Winifred L. Purinton for their kindness in remitting checks to be used by the department as they see fit, for all of which the firemen feel very grateful. To the Assistant Engineers, the members of the fire department, and all who have given me their aid and assistance I return my sincere and heartfelt thanks.

Respectfully submitted,

GEORGE H. CARTER,

Chief Engineer.

The Robinson Seminary.

PRINCIPAL'S REPORT.

To the Honorable Board of Trustees of Robinson Seminary:

The Principal respectfully submits the following report:

With the largest enrollment in the history of the institution, with fewer interruptions than usual from illness, with a faculty working harmoniously as a unit, the school work of the present year has progressed smoothly and steadily and there has developed in the school an earnestness that is gratifying.

Parents have been notified some weeks before the end of each term, and in some cases repeatedly notified, when the work of their daughter was unsatisfactory. As a result of these notes very marked improvement has been noticeable in several cases.

Three new out-of-door basket-ball grounds, which were equipped during the first weeks of the fall term and enthusiastically patronized by pupils from each of the eight classes in school, provided a means for the development of a sound physique which was greatly needed. Two more such grounds and two tennis courts could be used to excellent advantage in the spring. As an aid to the physical well-being of the pupils when in school, it would be well to purchase adjustable desks. If it is not possible at present to buy a large number, the expenditure of a comparatively small amount of money each year would be one of the wisest steps that could be taken.

The purchase in the fall of the case of game birds which was on exhibition in the lower corridor has given excellent facilities for the study of birds. The cases containing the birds, those containing minerals, and those containing shells, woods and miscellaneous objects, have been re-arranged with a view to making them more usable as well as more attractive.

All the text-books belonging to the school have been numbered and a record kept of those lent to each pupil.

The library has been re-numbered according to a system suited to whatever size it may assume as well as to its present proportions and a record has been made of the books it contains. Over two hundred volumes, the greater part of them carefully selected to meet present needs, have been added. In addition to the books purchased with the income of the Harriett M. Merrill Fund, the Seminary is indebted for gifts of books to the Massachusetts Robinson Seminary Club, to the classes of '96, '99 and '05, to the Forafos Club of the Seminary and to several friends. While these gifts greatly advance the value and usefulness of the library, many volumes must yet be added before it can adequately meet the requirements of a first class school library.

With the suggestion of your former Principal relating to a change in the present course of study, I am in entire sympathy.

A Commercial Course requiring an amount of work fully equal to that done in the Classical Course, including the subjects taught in such courses in the best schools of to-day, would be of great practical value to very many graduates of the Seminary who will not enter college. To carry out such a course would require another teacher in addition to the present faculty as well as the purchase of some equipment designed to meet the special needs of that work.

Without any additional expense, an English Course, requiring not more than two years of Latin, may be given and seems advisable, because it has been found that, while in the past ten years no study has gained so many pupils in the secondary schools throughout the country as has Latin, yet the universal testimony has been that to some pupils it presents such difficulties as to render it undesirable that they should continue the study until the end of the secondary school course. The conditions in the Seminary are no exception to the rule. Latin, in my opinion, should not be required of all pupils for more than two years; after that time it should be made elective. This change, accompanied by the granting of a diploma for an English Course, would be of very great benefit to the school, and its adoption cannot be too strongly urged.

Respectfully submitted,

HARLAN M. BISBEE.
